

The 25 answers form 12 pairs (the other one has lost its partner). All members of each set (one of 13 and the other 12) have something in common. The answers are in a logical and helpful order. Enter answers on the sheet to produce four words. The number of letters in an answer is in brackets (a few answers have 2 words). There are subsidiary questions on the sheet to be answered and a tie breaker. * means the clue gives an answer which sounds like what is required. **NB NO ELECTRONIC AIDS ALLOWED!**
